## **COURSE OVERVIEW**

Over the past thirty years, ATI has been a go-to resource for education in the cardiac rhythm management space. The Jumpstart program originally began as an in-person-only course, but over time has evolved into both an online and in-person course. The Jumpstart Online program contains 40 hours of self-paced, interactive online modules, lessons, tests and resources designed specifically for allied health professionals with one year or less of experience working in a device clinic and individuals interested in expanding their knowledge in the field of cardiac rhythm and device management. Initiation into the CRM world can be a lengthy process and it takes many AHP's and industry professionals a year or more to become proficient in this specialty; thus, this course represents the beginning of a learning journey rather than the end of one.

While the approximate duration of the recorded lessons and lectures is 40 hours, we recommend an estimated completion time of four to six weeks, taking additional time to attend optional Zoom lectures and Q&A sessions, as well as review, study and reference the many resources offered within the program, including interactive programmer and lead testing tutorials. Upon completion of the program, you will receive a certificate to acknowledge your accomplishment.

The following syllabus provides an outline of the content included in your course. The times in parenthesis next to each module slide are the approximate length of that slide. At the end of each module is the approximate duration of the recorded content in the module. However, in order to properly retain the material, it is suggested that students watch each module more than once and/or pause frequently to take notes and review concepts. Each unit contains resources that can be referenced as well, so additional time is allotted for review of these items. Therefore, the "estimated time to complete" each module, will vary significantly from the approximate duration of the slides

Unit 1: Cardiac A&P, Pathophysiology and Electrocardiography  Unit 1, Module 1: Cardiac Anatomy and Physiology  1 hour  3 hours  Unit 1, Module 2: ECG's and Normal Conduction  2 hours 15 min  5 hours  Unit 1, Module 3: Sick Sinus Syndrome  45 min  2 hours  Unit 1, Module 4: Escape Rhythms  45 min  2 hours  Unit 1, Module 5: Atrial Arrhythmias  1 hour  3 hours  Unit 1, Module 6: Heart Blocks  1 hour  3 hours  Unit 1, Module 6: Heart Blocks  1 hour  3 hours  Unit 1, Module 6: Heart Blocks  1 hour  3 hours  Unit 1, Module 8: ECG Review and Strip Analysis Lecture  1 hour 15 min  3 hours  Unit 2: Pacemakers  Unit 2: Pacemakers  Unit 2, Module 1: Nuts and Bolts of Cardiac Pacing:  Unit 2, Module 2: Nuts and Bolts of Cardiac Pacing:  Unit 2, Module 3: Pacemaker Indications  Unit 2, Module 4: Pacemaker Indications  Unit 2, Module 4: Pacemaker Modes and Codes  Unit 2, Module 4: Pacemaker Modes and Codes  Unit 2, Module 6: Recognizing Appropriate Pacing and Sensing  Unit 2, Module 6: Recognizing Appropriate Pacing and Sensing  Unit 2, Module 8: Dual Chamber Timing Cycles  1 hour  Unit 2, Module 9: The Four Faces of DDD  30 min  1 hour  Unit 2, Module 9: The Four Faces of DDD  40 min  2 hours
Unit 1, Module 2: ECG's and Normal Conduction 2 hours 15 min 5 hours  Unit 1, Module 3: Sick Sinus Syndrome 45 min 2 hours  Unit 1, Module 4: Escape Rhythms 45 min 2 hours  Unit 1, Module 5: Atrial Arrhythmias 1 hour 3 hours  Unit 1, Module 6: Heart Blocks 1 hour 3 hours  Unit 1, Module 6: Heart Blocks 1 hour 3 hours  Unit 1, Module 7: Ventricular Arrhythmias 45 min 2 hours  Unit 1, Module 8: ECG Review and Strip Analysis Lecture 1 hour 15 min 3 hours  Unit 1 Resources 3 hours  Unit 2: Pacemakers 12 hours 30 min Total 32 hours Total  Unit 2, Module 1: Nuts and Bolts of Cardiac Pacing: 10 min 1 hour  The Pacemaker System  Unit 2, Module 2: Nuts and Bolts of Cardiac Pacing: 20 min 45 min  Pacing Leads  Unit 2, Module 3: Pacemaker Indications 20 min 45 min  Unit 2, Module 4: Pacemaker Modes and Codes 20 min 45 min  Unit 2, Module 5: Nuts and Bolts of Cardiac Pacing: 45 min 1 hour 30 min  Unit 2, Module 6: Recognizing Appropriate Pacing and Sensing 1 hour 2 hours  Unit 2, Module 6: Recognizing Appropriate Pacing and Sensing 1 hour 20 min 3 hours  Unit 2, Module 8: Dual Chamber Timing Cycles 1 hour 20 min 3 hours  Unit 2, Module 9: The Four Faces of DDD 30 min 1 hour
